Indicating status and protection function

1. LED blue light: Standby
2. LED green light: Charging
3. Blue light flashing: Mobile phone location in deviation or over temperature protection or trigger FOD

Installation

1. Plug the power adapter into the socket.
2. USB side connects the power adapter, USB-C Interface connects the wireless charging pad.
3. Put the mobile phone which supports wireless charging function on the launch plate correctly. Indicator light changes to green from blue if it starts to charge. The light will be blue if you remove the mobile phone, which means the wireless charging pad enters in a standby mode.

Note:

Only a Qualcomm Quick Charger 2.0/3.0 adapter can support fast wireless charging,the adapter is not included in the accessories and need to be purchased seperately.

Important notes

- 1.To keep high efficiency,please remove the protective case(except receiver case) when charging. We suggest to use a 2A adapter for the best effect.
- 2.Do not disassemble the charger or throw it into fire and water, to avoid short circuit leakage.
3. Do not use wireless charger in severely hot, humid or corrosive environments, to avoid circuit damage and occurs leakage phenomenon.
4. Do not place stuff with magnetic strip or chip (ID card, bank cards, etc.) on wireless charging pad to avoid magnetic failure.
5. Please keep the distance at least 20cm between implantable medical devices (pacemakers, implantable cochlear,etc.) and the wireless charger,to avoid potential interference with the medical device.
6. Please take care of the children and ensure they won't play the wireless charger as a toy, to avoid unnecessary accidents.
